## SKILLS

- HTML/CSS
- MERN STACK(Reactjs,Nodejs)
- JAVA (Spring boot)
- DB (MySQL,MongoDB)
- GIT
- AWS
- JIRA

## LANGUAGES

- English
- Urdu
- Punjabi

## PROFILE

I am a passionate Software Engineer with 5+ years of experience building impactful digital solutions through front-end development with React.js and back-end expertise in Java (Spring Boot) and Node.js (NestJS). My journey has equipped me with strong skills in application analysis, design, implementation, and troubleshooting, allowing me to deliver efficient and scalable products. As a Full Stack Developer, I enjoy working across the stack—combining JavaScript, Java, and MERN technologies—to bring ideas to life. I take pride in being a creative, analytical, and results-driven professional, always eager to learn, innovate, and contribute to high-performing teams.

## WORK EXPERIENCE

### System Limited (EpSystems)

2022 - PRESENT

#### Senior Software & Team lead

- Lead a team of developers, providing technical guidance, code reviews, and mentorship to ensure high-quality deliverables.
- Designed and developed scalable applications using React.js, Java (Spring Boot), and Node.js (NestJS).
- Defined and implemented REST APIs, microservices, and database models to support business needs.
- Collaborated with cross-functional teams to gather requirements, plan sprints, and deliver projects on time.
- Oversaw the end-to-end software development lifecycle including design, development, deployment, and maintenance.
- Ensured application performance, security, and scalability through proactive monitoring and optimization.
- Promoted Agile/Scrum methodologies to improve team collaboration and delivery efficiency.
- Introduced and implemented modern technologies (MERN stack, CI/CD, cloud solutions) to enhance productivity.
